

Welcome back to school 5th and 6th Graders!

We hope you have been enjoying your summer! The new school year will be here before we know it, and we are excited to welcome back the 6th graders and get to know the new 5th graders!

Our year will be spent investigating new science with Mrs. Lyon, exploring our past and present world with Mrs. Bullaro, probing mathematics with Mrs. Wozniak, and digging into literature and writing with Ms. Genco. Toss in some art, music, Spanish and physical activity, and we are going to be very busy making ourselves stronger and smarter!

We will be back together again on September 5th. In the meantime, keep an eye on the PCS website for information, and watch for details about our Open House in the mail and on Facebook!
